Phoenix Art Museum's 2009 Art Masterpiece Training Program

FALL into ART

The Art Masterpiece Program trains school-based volunteers in tools and techniques to teach elementary-level students about the visual arts. Most participants are classroom volunteers at a child's school who augment presentation of the visual arts on a regular basis. The Training Program covers the basics of looking at and discussing art objects, an overview of art history, resources for materials and ideas, modeling of classroom presentations and activities, and Museum orientation.

Whether your school already has an Art Masterpiece Program or is looking to set one up, the **2009 Art Masterpiece Training Program** is the place to be!

Wednesdays*
September 9, 16, 23, 30
